ABOUT ME

As a meticulous and detail-oriented QA Software Tester, I am passionate about ensuring the quality and functionality of software products. With a strong foundation in manual testing methodologies, a passion for automation testing, and a keen eye for identifying bugs and inconsistencies, I excel in meticulously evaluating software applications to uncover defects and ensure seamless user experiences. I am adept at creating comprehensive test plans, executing test cases, and documenting results to facilitate effective communication with development teams and stakeholders. Eager to learn and grow in the field of Quality Assurance, I am committed to continuously expanding my knowledge of testing best practices and industry standards to contribute to delivering high-quality software solutions. With a collaborative mindset and a proactive approach to problem-solving, I am dedicated to playing a vital role in driving product excellence and customer satisfaction through rigorous QA testing.

WORK EXPERIENCE

NECHY'S AUTHENTIC STORE

2020 - 2024, Voluntari IF

Website Testing, Listing, Webdesign

- Testing all website functions, including navigation, links, forms, buttons, and interactive elements for expected behavior.
- Ensuring website compatibility across browsers (Chrome, Firefox, Safari, Edge), operating systems (Windows, macOS), and devices (desktops, laptops, tablets, smartphones).
- Evaluating website UI/UX for intuitiveness, navigation flow, layout, readability, and accessibility to meet audience needs.
- Validating content accuracy, completeness, and relevance, including text, images, videos, and multimedia elements, against brand guidelines.
- Conducting regression testing on previously validated functionalities to prevent introduction of new defects or issues with recent changes or updates.
- Content creation for listing articles on websites: Creating product images and Copywriting
- Product listings on the company's website and marketplace platforms (Amazon/Emag/Cel, etc.)

NO LIMIT ADVERTISING

2004 - 2020, Bucharest

Production Manager

- Manage the advertising production workshop;
- Translating the concept into practice;
- Proposing technical solutions, budgeting projects;
- Designing/preparing/adapting graphics including logos, illustrations, and/or materials for printing or cutting as required (digital/offset printing, indoor/outdoor printing, car/showcase lettering, promotional item personalization, stands/lightboxes/furniture);

HELL ADVERTISING

2001 - 2003, Bucharest

Production Manager

- Active participation in sales meetings to identify customer requirements and propose technical solutions;
- Establishing methods for creating/inscribing/personalizing requested promotional materials;
- Coordinating the graphic design department to create visuals in accordance with client requests, brand requirements, and product specifications;
- Budgeting, scheduling, and launching into production;
- Monitoring work throughout the production process to ensure quality, quantity, and adherence to deadlines;
- Receiving advertising materials and scheduling deliveries.
